**BACKGROUND INFORMATION**

Our worksession on this topic in January summarized many of the security concerns that were identified by our schools. These concerns range from replacing blinds to refurbishing the entrance to a building. This worksession is being held to continue this discussion and to provide guidance on how we should prioritize our needs. Once prioritized, we can more formally bring these needs to our borough and state legislators.

I know that there is a heightened awareness among our elected officials to help schools become more secure. I feel that it is important that we develop a list of our most urgent security needs and then share it with them.
