**FUME EXTRACTOR
STATIONARY**

FilTek XL Filter Technology

- Has longer filter life - up to 2 times that of treated cellulous filters.
- Superior filtering of up to 95% of weld fume particulates.
- FilTek XL's surface loading filters vs. competitors depth loading filters gives Miller filters advantages that benefit you:
 - Easier and more complete filter cleaning results in longer filter life.
 - More efficient air flow thru the filter results in lower operating costs and stronger suction power for a cleaner work space.

Self-Cleaning Filter

Easy to Operate Extraction Arm

SPOT WELDER

Air-operated (pneumatic), water-cooled unit offers output rating selections and welding up to 1/4" total thickness capacity for uncoated mild steel using 6" tongs. 1 phase input power.

- Built-in squeeze/weld timer for quick & easy setting or adjusting squeeze &/or weld time in 100th of a second
- Set-up/weld switch permits checking tong pressure & alignment w/out making a weld
- Quick, easy material thickness adjustment
- 10-step current control adjusts output current w/no change in duty cycle
- LED display to easily read timer settings
- Adjustable tong pressure for different thicknesses & applications

Rated output (40% duty cycle): 12,500 A @ 6", 10,500 A @ 12", 9,000 A @ 18", Rated input: 90 amps @ 230V, Max. Open-circuit voltage: 3.55 Not recommended for welding aluminum, copper or copper alloys. 15-3/4"H x 13"W x 19"D. Weight 185 lbs.

Includes stationary welding head, remote foot switch, all-steel pedestal w/controls & timer, air filter & regulator assembly. Coolant System, required for operation, sold separately below. Tongs & tips also sold separately below.

**WELDING HELMET
AUTO DARKENING**

\$ _____ \$ _____

With Grind feature

BRAND/MODEL #

Designed for both welding and grinding applications.
Lightweight helmet's 1/25,000 second switch time
automatically darkens the lens the instant you start
welding. Helmet acts as a protective shield when grinding
by preventing the lens from darkening.

is item available now? Give due date

- Solar-powered auto-darkening lens charges with exposure to welding or sunlight
- Excellent lower amperage TIG responsce (≥ 5 Amps)
- High-level, quality LCD ensures the welding spot appears more clearly and protects your eyes from fatigue after extended use
- 2 independent arc sensors
- Variable shades 9–13 auto-darkening with sensitivity and delay adjustment
- Adjustable ratcheting headgear with replaceable sweatband
- Stylized flame graphics

71	1	EA	AIR HOSE POLYURETHANE Professional Grade 40-percent lighter than PVC and is spiral reinforced for increased durability. Ideal for applications where lugging around a heavy hose can be a nuisance like a roofing job. Designed with a crimped-on compression ring and screw-on quick connectors for your convenience. Connectors are 1/4-inch NPT thread male swivels, which makes attaching this air hose fast and easy. 100-foot hose can be used with pressures at or below 300-PSI and it has a 3-to-1 burst ratio. White colored hose is highly kink resistant, which prevents the hose from twisting, limiting project interruption. Air hose also has bend restrictors for added durability and it stays flexible allowing you to work in all weather conditions. 30-day limited manufacturers warranty Size/Color 1/4" x 100' White HITACHI 19412F Acceptable brands - ☒ or approved equal (sample/literature required) ☐ only	\$ _____ \$ _____ _____ BRAND/MODEL # _____ is item available now?
