Action Needed **For Discussion** **Information** **Other:** _____

BACKGROUND INFORMATION

Project GRAD Kenai Peninsula support services began during the winter of 2003. Their team continues to be actively involved in seven KPBSD K-12 schools. Some of the services provided include instructional coaching, campus family support, college access activities, post-secondary scholarships, leadership, and the annual summer institute.

Project GRAD Kenai Peninsula is honored to be able to share 2012/13 highlights. Included in the presentation will be updates on programs offered, academic achievement results, career and college access activities, parent and community engagement, funding status, and sustainability. As always, Project GRAD Kenai Peninsula looks forward to school board comment, direction and questions during the overview presentation.
