## BACKGROUND INFORMATION

During our work session, we will review the recommendations from both evaluation systems along with staff and community feedback.

The Effective Instruction Committee has recommended slight adjustments to documents, but would like the current system remain static for the upcoming school year. Based on new state regulations, the committee is exploring moving to a 2 Domain system, but will work with staff and community to revise the rubric and system over the next school year.

The Effective Leadership Committee has recommended a refinement of the administrator evaluation system to a 2 Domain approach that will allow discussion of student learning as a part of the administrator evaluation. This will meet the new state regulations.
