SUBJECT: Ordinance 2013-___, issuance of debt for School Capital Improvement Projects

The attached ordinance requests approval to place a \$22,987,000 bond proposition before borough voters as part of the October 1, 2013 election.

In a report from Klauder Company Architects dated April 23, 2010, a number of school roofs (some of which are more than 40 years old) were noted as being near the end of their useful lives and in need of replacement. Roof replacements were scheduled to be completed in two phases.

After receiving voter approval at the October 5, 2010 borough election, school bonds for Phase I in the amount of \$16,865,000 were issued in December 2010. Roof replacements included K-Beach Elementary, the district-wide warehouse, Kenai Elementary, Soldotna High School, Kenai Central High School, Ninilchik High School, Nikiski Middle/High School, Seward Elementary, Chapman School, Homer Middle School, and McNeil Canyon Elementary School. Projects funded by Phase I are substantially complete and the borough is ready to issue bonds for Phase II.

Roof replacements funded as part of Phase II would include: Tustumena Elementary School, Skyview School, Soldotna Middle School, Homer Junior High School, Paul Banks, Kenai Central High School, Soldotna High School, Kenai Middle School - 10 Year, Kenai Alternative School, Ninilchik (97). In addition, Phase II would include funds for the Homer High School turf upgrade.

Below is a schedule of the roofs that were completed as part of Phase I and the roof projects scheduled as part of Phase II.

The estimated costs of the Phase II roof projects and the Homer Field project submitted to the State of Alaska Department of Education are as follows:

Homer Field	\$1,991,736
Tustumena Elementary Roof	2,023,679
Skyview School Roof	3,777,473
Soldotna Middle School Roof	3,345,209
Homer Junior High School Roof	1,549,084

Total	\$22,987,018
-------	--------------

The requested approval would be contingent upon the bonds becoming eligible for at least 70% debt reimbursement from the State of Alaska.

Financial Impact

The issuance of \$22,987,000 of general obligation bonds for Phase II is expected to have annual debt service requirement of approximately \$1,574,500. Assuming a 70% reimbursement rate from the State of Alaska, the net annual cost to borough taxpayers would be \$472,350. The resulting impact on the annual tax levy would be approximately \$6.77 per \$100,000 of assessed taxable property value (based on the total FY2014 assessed valuation, a 3.5% average rate of interest, a 20-year payback period, and a 70% reimbursement from the State of Alaska). Repair of these roofs is expected to result in lower operating and maintenance costs in the school maintenance fund in addition to a reduction in energy consumption.
