Introduction

Introduction

The Kenai Peninsula Borough Board of Education is responsible for providing an adequate educational environment for the students of the Kenai Peninsula Borough School District. To fulfill this obligation, the Board regularly reviews the District's long-range plan. On an annual basis, the School Board receives a new enrollment report.

Information from building administrators and other sources (like Child Find and Head Start programs) help determine the projected number of incoming kindergartners at each school. Once estimates have been made for the incoming kindergarten class, the other peer groups are rolled forward to the next grade. Administration also takes into consideration historical trends, economic variables and other available information in the projection.

This narrative is divided into two sections:

- School Facilities and Educational Structure
- Population Growth and Projections for FY18 through FY22

Charts and data providing detailed membership projections, graphs of demographic facts related to the student population and other information are included in each section. Birth data has been collected from the State of Alaska Department of Public Health, Vital Statistics Section through 2009 and additional census data has been collected from the 2010 Federal Census.

The process used to project the FY18 enrollment is based on a straight-line method. The steps involved were:

1. Grades at all school sites were moved ahead one grade level with some variance based on principal input.
2. Charter school enrollment projections are in concert with the contractual agreement between the School District and the charter school.
3. AR 6183 (c) notes the enrollment staffing for Homer Flex, Kenai Alternative and Kenai Youth Facility locations.
4. Kindergarten enrollment was based on the average of actual enrollment, for FY15, FY16 and FY17 and administrator recommendations.
5. Sites affected by feeder schools were adjusted appropriately.

The District was required to submit the FY18 enrollment projection to the Department of Education and Early Development by November 4, 2016.

School Facilities and Educational Structure

The Kenai Peninsula Borough School District operates 44 facilities, housing 8,939 students and 1,242.48 FTE district staff.

There are a variety of configurations, depending on community location and population. Schools are divided into four categories for the certified staffing formula, with further divisions for the support staffing formula. As of November 2010, the four categories specified by the certified staffing formula are:

1. High School/Middle School with population greater than 100:

Homer High	Seward High
Homer Middle	Seward Middle
Kenai Central High	Skyview Middle School
Kenai Middle	Soldotna 10-12
Nikiski Jr/Sr High	Soldotna 9 th Grade House

2. Elementary Schools K-6 with population greater than 250:

K-Beach	Seward
Mountain View	Soldotna
Nikiski North Star	West Homer
Redoubt	

3. Elementary Schools K-6 with population from 100 -250:

McNeil	Sterling
Paul Banks	Tustumena

4. Small Schools with population less than 200:

Chapman	Ninilchik
Cooper Landing	Port Graham
Hope	Razdolna
Kachemak Selo	River City Academy
Moose Pass	Susan B. English
Nanwalek	Tebughna
Nikolaevsk	Voznesenka

5. Other Programs:

Connections	Kenai Alternative High
Homer Flex High	Marathon

Special Education services are offered in all elementary and secondary schools in the District.

There are five charter schools authorized in the district, with the newest scheduled to open their doors is Greatland Adventure Academy. Opening will depend on their ability to find a suitable physical space.

Aurora Borealis Charter School serves grades K-8. Kaleidoscope School of Arts and Sciences serves grades K-5. Fireweed and Soldotna Montessori Charter schools serve grades K-6. Soldotna Montessori is organized by age. Charter schools are not included in the staffing formulas because they determine their own staffing levels.

Homer Flex and Kenai Alternative are schools that offer alternative programs for students within their communities to complete high school. River City Academy offers a secondary grade level standards-based program. Marathon is a high school program in a secure facility operated in conjunction with the Department of Corrections.

Elementary and charter schools feed into middle schools and middle schools feed into high schools. The following listing shows the elementary schools that are located within each middle school attendance area:

O A S I S

On-line Alaska School Information System

The State Board of Education & Early Development adopted a regulation in 2001 that required the Department of Education & Early Development to assign no later than August 31, 2002, an individual student identification number for each student in the state. To accomplish this, the department has implemented a high security, password protected, web-based system that assigns these numbers. School districts will use this number when they report electronic student information to the department including test scores.

The number will be unique to each student and will not be a Social Security number. The number will enable the department to better analyze student information and make informed policy decisions. Additionally, the number will allow for more accurate reports of school and student performance to the governor, legislature and public.

The student identification number is for department use only and becomes part of a student's school record. The number does not change if a student moves from one Alaska district to another. Beyond its use by the department for data analysis purposes, the student identification number has no other purpose or significance.

What is OASIS?

On-line Alaska School Information System is operated by the Office of Assessments and Student Information in the Division of Teaching and Learning Support. The responsibilities of this office include the collection, analysis and publication of student and education information.

- This information was gathered from the State of Alaska, Department of Education & Early Development website

All school districts in Alaska participate in the so-called "Twenty Day Count" beginning approximately October 1 every year and ending on the fourth Friday of October. Each student is counted at the school where he or she is enrolled and the numbers are forwarded to the state for verification. Through the use of the unique student identification numbers, districts are able to determine which students are "theirs" and which students have transferred to other districts or out of state. Once the counts are verified for actual students, the amount of time they are enrolled in school (full-time, part-time) is calculated by grade at each school in each district. Since the calculations include part-time students, they rarely add up to whole numbers and comparison of OASIS numbers with enrollment projections is problematic. For that reason, the OASIS calculations are reported separately with a comparison to current enrollment figures.

FY04 is the first year that OASIS numbers are available broken down by grade at each school. Previously, they were only available as a school total.
