**RE:** 2010-11 Board of Education Goals

On April 27, the District Administration, with input from several Board members, worked on the development of the 2010-11 District goals. This work was then synthesized into two goals by the District's Instructional Team.

At the School Board June planning retreat these goals were reviewed and the following four goals were developed for the coming school year. Action steps for each of these goals will be developed by the Board on August 17.

### 2010-11 KPBSD Board Goals

1. The Board will support the 2010-11 District Goals
  - Increase student achievement by being responsive to individual student needs through structured collaborative practices Districtwide (and in our communities).
  - Increase student engagement by implementing quality instructional practices with embedded, 21st Century skills Districtwide
2. The Board will support and participate in the District Communication Strategic Plan
3. The Board will develop a long-term funding strategy for stability and adequacy
4. The Board will review and respond to the Curriculum Audit Report
