SUBJECT: Recommendation to Acquire Property

Usable ABCS playground space has been reduced in size due to the addition of two portables. There are three lots adjacent to the playground that can be purchased from the owner at total assessed value (\$62,700) or possibly the borough would trade for more saleable property. The addition of the three lots would make available much needed space for playground and area to put a storage building for Kenai Alternative School and ABCS.

Should it be decided to purchase the property, ABCS has funds available in its 375 account.

The APC at the February 20, 2012 meeting voted to recommend the purchase or trade for the property. We encourage the district to pursue the acquisition of the three lots.
