## BACKGROUND INFORMATION

On October 16, 2012 the Board will have a work session to discuss the results of the 2012 Soldotna area survey. The survey was conducted to gather more information on the instructional delivery system for the Soldotna area stemming from last year's conversations at the school administrative level and site council meetings.

1	<p>#6: Agree, but it depends on how changes are made. AP courses are only as good as the instructor and the question is how helpful are they to the student in being better prepared for college and/or improving their depth and range of knowledge in the AP classroom. Multi-grade classrooms are dependent on course content and maturity of students. Advanced classes like Algebra, calculus, etc are fine multi-level because if the student is in that class in the first place one would hope that they are a good student and actually want to learn. Career and Technical choices are needed for students who aren't "college" minded but want or need to learn a trade. Many of the kids who are disruptive in the classic classroom do much better in skill type settings. Also if there was less emphasis on attending a school for the sports teams there wouldn't be such a disparity in enrollment between the two high schools. Skyview loses kids to SOHI for sports then the remaining students have less academic opportunity because you decrease classes offered since there are less students. SMS should also STOP recruiting students to attend SOHI for athletics. I've had 3 kids though this district so am speaking from experience.</p>	Oct 5, 2012 5:45 PM

**Page 2, Q11. Do you have questions or comments?**

	Middle School - move them all to Soldotna High School building High School: 10-12; have all high school grades 10-12 at Skyview building.	
53	Maintaining 4-6 classroom is very important to Montessori curriculum. 9-12 career/tech school and traditional school: if this allows enhanced academics at traditional school Strongly disagree with decreasing AP course offerings!	Sep 28, 2012 12:25 PM
54	I think that currently there are a lot of extra-curricular provided by the school. It would certainly best serve the community to have a different configuration of schools. It is difficult to choose which programs to decrease, but cutting back down to the basics is the best idea. Extra athletics, extra electives and extra fine arts classes that serve a small percentage of students should be decreased if the current configuration is kept. I do think basic music, PE and technical classes should be offered, but perhaps not as many of each.	Sep 27, 2012 3:22 PM
55	enforce boundaries!!!	Sep 27, 2012 2:55 PM
56	I firmly agree that boundaries should be strictly enforced. With that said, I do not like the bottle neck at SMS. I do not think they should be brought together, make good friends and then separated for HS. The Sterling parents where also discussing the separation of the Sterling students once they get to HS. There is a real problem with recruiting students to go to Soldotna High School. This is a BIG problem and needs to be addressed.	Sep 27, 2012 8:07 AM
57	The district boundaries need to be strictly enforced, no exceptions. Stop the stacking of sports teams. Stop the recruiting at SMS for Sohi athletes. Teachers should have mandatory drug testing; frequently.	Sep 26, 2012 5:13 PM
58	give children as many oportunites to learn as possible!	Sep 26, 2012 12:36 PM
59	I need to think more about this.....	Sep 25, 2012 3:53 PM
60	If you had to mesh two school changing the mascot might make it so there isn't as much of a rival between 'panthers' and 'stars'.	Sep 25, 2012 12:27 PM
61	Question #9 I could with either of the last 2 options, but I do think that a center dedicated to VOTECH is needed.	Sep 24, 2012 9:28 PM
62	I don't know much about certain things like AP class, ROTC, Career certificates so I couldn't really judge them nor was there an I don't know box	Sep 24, 2012 5:34 PM
63	I have never liked the idea of 1 jr. high feeding 2 highschools. I was a student at SOHI when Skyview opened. It didn't make sense then, and it doesn't make sense now. My recommendation would be to house the jr. high at Skyview and to use the Soldotna facilities for the high school. Either housing the 9th graders at the current jr. high or using it for a tech school sound like viable options to me. Quality programs available to all of our kids should be our first priority.	Sep 24, 2012 1:59 PM
64	Open for most ideas and I think many have merit. I would like to see opportunities maximized for kids like sports. Current configuration has evolved from sports which is wrong. the only sports consideration should not be how well can we stack a team but how many teams can we afford so as many kids as possible get the opportunity to participate.	Sep 24, 2012 1:41 PM

**Page 2, Q11. Do you have questions or comments?**

65	I would like to see a career tech high school. Many of or children do not plan on going to college.	Sep 23, 2012 10:28 AM
66	I currently have a student with Special Educational needs and I am Scared to death of my child being put into a 6th grade Jr. High situation, It would NOT benefit him in any way. I believe that situation would increase in Bullying. Which seems to be an ongoing problem for many Children. Either they are the reciever of it, or the instagator.	Sep 22, 2012 2:38 PM
67	I think that a k-8 for some elementary schools could be beneficial, but I would not support k-8 for all of the schools.	Sep 22, 2012 9:49 AM
68	It was interesting that there were no questions relating to home schools, those programs receive monies and should also be considered in this issue/discussion. Thank you.	Sep 21, 2012 11:51 PM
69	no	Sep 21, 2012 11:45 PM
70	I am appalled that the discussion of reconfiguring middle school grades began because parents of students at Soldotna elementary schools and SMS were concerned that their child(ren) wasn't getting the same benefit athletically as the KMS students (who currently have a 6-8) school. We have been in need of reconfiguration to support more effective delivery of ACADEMIC subjects for years. Making decisions based on the few students who will benefit athletically is so unfair to the many who would have benefitted academically to reconfiguration reconfiguration had we done it years ago when it first came up. I suspect pursuing the issue now while parents are the initiators will benefit the academic changes needed. I can only hope!	Sep 21, 2012 2:17 PM
71	Two high schools in this small of a town is a bit ridiculous. One high school at this point is the way to go.	Sep 21, 2012 1:22 PM

country that wants to redistribute wealth. We need to return to our roots as a country of people who want to work, want to support their families, their communities and want to be proud of being a legal citizen of The United States of America. We have to teach and train students so that they can provide for themselves and not expect the government to provide everything for them. Where is the personal pride in that? Where is the national pride in that? We need to encourage students to be the best they can be in whatever field they wish to pursue and teach them the skills they will need to succeed. I would like to see Future Farmers of America back in the schools on the Kenai Peninsula. I would like to see ROTC, 4-H and other programs which support good moral character offered in our schools. I would like to see the 10 commandments back on every wall. Everyone should be able to see the value in encourageing and following those teachings. What could be offensive about stating that we should not kill, steal, covet, be disrepectful or deceitful or any of the rest of the 10 commandment teachings. A country and a world with those values would be so much less violent and so much less selfish. Our forefathers must have agreed because they had the 10 Commandments engraved in stone and hung on walls and prayed aloud in our public buildings. I am so blessed to have been born in this country and raised in this state. We still have many of the freedoms that our sister states have lost. I pray we are not going to be next in line. We must guard against apathy and watchguard our freedoms or we will be called upon to fight for them as our forefathers did or loose them forever.

77	I do not believe that JR. high kids belong with high school students. I think that while preschool is important bringing preschools into the elementary schools has taken space that could otherwise be used for extra regulae ED classes or behavioral classes.	Sep 20, 2012 12:26 PM
78	For question 10c, the multi-grade classroom, I think that this idea would be good for middle and high school student,( having more 7th-8th grade classes together, and not isolating the freshman as much), but it wouldn't be a good idea for elementary schools.	Sep 20, 2012 10:55 AM

has been tried here before. Yet, it is still called a Middle School. This is not correct. Soldotna has a Jr. High. Let's call it what it is. It is not a bad thing, but should not be labeled a Middle School. The concept is great, having 6th-8th together....but ONLY if the concept is in its true form. Otherwise, keep the 6th graders with the elementary students, please! One more thought; if we have two high schools, why are we cramming all the students into ONE 'middle school'. This makes no sense. The school is too small and over crowded. I know many parents who have begun their home school experience at this age because of this reason. Why not have two middle schools, and follow the concept of a middle school? I believe the parent satisfaction rate would go way up. As for the rating chart above, I do not think putting PE classes and Athletics into the same question is fair. Yes, we should have PE options for our students. This does not mean we should continue funding athletics at the same rate. If funding for the arts is decreased, athletics should be decreased at the same rate. Thank you for asking our opinion. Question is....will you listen to the public?

I do not see the advantage of having a 9th grade "house" within walking distance to a high school. I wish you had put a link in this survey to more info on the main website. I definitely believe an increase in Career and Technical education is essential. I do not think Business and Foreign Language electives are in the same ballpark. In the private sector , when there is a decrease in revenue, EVERYTHING is on the block for cuts, but it seems with the school all we ever cut are those things that most closely affect our children, instead of trying to make administration more efficient and less redundant. With less students in the classroom means more attention to each student, less the teacher has to do, and more attention to changes in the education system as a whole. would also be good for the students; however, the current building would not be a good fit. The middle school years are often considered the "make or break" years of school; therefore, we should provide a building that allows students to spread out, have more opportunities, and to prepare for high school in an environment that will accomodate these experiences.

123 I am torn on the high school configuration. As an employee I see a great need for the career and technical school but I also liked the 7-9 and 10-12 option, if a career and technical school were not available. We can not continue to run such small high schools, our students need more and I feel the career and technical school would be a great addition to the community. As far as AP course, I think the Jump Start program is a better option. All students are not college bound but some basic generals met via jump start or with good career and technical training we could be preparing student 's for jobs, associates degrees, and life. results in much of the student loss. We should really ask our most important resource to contribute to the discussion and have a steering committee with student representation. Thank you.

collapsing. Stop over engineering the situation and redoing something that doesn't need to be redone as far as grade combinations. Repair what we have and grow from it. Skyview and SOHI are healthy rivals and should be given equal opportunities without having to combine both schools together and make a over populated school. Why were these strange ideas of rearranging grades brought up in the first place. This is nonsense and over engineering. There are some great teachers at these schools. But, get rid of the slugs and bring in the ones that want to teach kids. And quit over paying the high administration so that there can be some more money given to the schools themselves. 178	You built Skyview to replace SoHi is my understanding. Tell the whining parents that life is sometimes tough. Close or develop another purpose for SoHi, have all the kids go to Skyview. It is monumentally stupid to maintain the 2 facilities, especially when one was built to replace the other. Yes the snob parents who think their kids are SO VERY special as compared to the neanderthals at Skyview do not want their kids scarred by these kids. Guess what, my kid is in his secnd year there and has basically been getting straight A's. It is possible for them to learn. And you may believe the Skyview/SoHi bigotry does not exist, it does, and it needs to stop. Why waist the money on infrastructure so the snob parents can feel better about themselves. Get rid of the duplicate infrastructure and spend the savings on new teachers and programs. Seriously, you need to ask these questions?!?! This is a no brainer.	Sep 14, 2012 1:04 PM
179	When will the discussion of closing Skyview High School end? There is a community closely associated with that school, and the constant efforts by those more connected to Soldotna HS to close down its cross-town rival creates great anxiety among Skyview students and families and is almost abusive in quality. 181	Having 2 high schools definitely gives students a choice, and their small size ensures more individual time with teachers and a friendlier environment :)	Sep 14, 2012 11:41 AM

184	I think that the current way of our school configuration is doing very well true some schools may have difficulties but all schools do and i think that in the end thats ok cause its how we overcome those difficulties that really makes us grow as people. So in my oppinion i think that everything has been working out well for all the schools weather we have less students or not its the people in the school who make the school not the amount of people but the charecter of the people inside. 185	If two high schools were to merge, it would be important to change the high school name, mascot and school colors to decrease tensions and eliminate rivalries and legacies.	Sep 13, 2012 8:57 PM
186	I believe we need to have more sports for the elementary age children.	Sep 13, 2012 7:04 PM
187	Moving the middle school to the Skyview campus and combining Sohi and Skyview into one large high school, utilizing the existing middle school as part of the high school campus seems like a way the district could save money in staffing.	Sep 13, 2012 3:54 PM

191	If you are guna change it change it but make sure to have the better of the principals and teachers work at the schools.	Sep 13, 2012 11:31 AM
192	I want my children to have an academically rigorous education, as well as adequate extra-curricular opportunities to qualify them for competitive scholarships and college admissions. We are considering homeschool as an alternative method of providing challenging coursework to our kids, although I would rather see them challenged in a classroom learning community with same-age peers. It is very important to us that our children be allowed to excell to their full potential, even if it means that we pay for private lessons to supplement what is available in the regular classroom.	Sep 13, 2012 11:11 AM
193	You should inform people about these issues BEFORE we take a survey on it, only a few people actually knew about the possibility of configuration changes.	Sep 13, 2012 10:54 AM
194	The answer to this problem is not to decrease the education options us students have. The goal is not to make us stupid by not offering complex classes but to make us smart by challenging our intellect with harder classes more form fitted to our intelligence level.	Sep 13, 2012 10:54 AM

198	It has been proven over and over that students who are involved in Fine Arts programs outperform students that don't. Cutting the arts is not the answer to increasing student achievement, and isn't that the goal of all school districts! PE is also a VITAL part of a childs development and heath.	Sep 13, 2012 10:23 AM
199	My child was able to take 2 years of Russian in the last years it was offered at SOHI. Also, she has taken Digital Electronics and Principles of Engineering. She is currently in AP Calculus. She is planning to attend college for and Engineering Degree. She has school spirit (STUCO & NHS), but has not participated in any sports in high school. Thank you KPBSD for educating my daughter.	Sep 13, 2012 8:53 AM
200	I think sohi and skyview should be one school. Middle school should be moved to skyview. The current middle school should be for 9th grade or even possibility for more career base for students	Sep 12, 2012 10:46 PM
201	Has KPBSD considered the option of year-round schooling on a multi-track system in our schools? In other areas it has been used in response to having too many kids, but in our case it would seem that perhaps it would be a way to increase the usage of our buildings and therefore open other options for the other schools (such as the career/technical school mentioned in this survey).	Sep 12, 2012 10:37 PM
202	One high school PLEASE	Sep 12, 2012 10:05 PM
203	We have just returned to the community after living out of state for several years. The communities in the surrounding area we came from had a 6-8 configuration for middle school, and a ninth grade campus in walking distance of the main high school campus. This configuration has been very successful, and we are very excited that KPBSD is considering this as an option.	Sep 12, 2012 8:37 PM
204	I don't think that we are spending enough time, resources, and money helping gifted and talented students excel. Because of NCLB, they are actually being left behind because they are not allowed to learn in THEIR least-restrictive environment.	Sep 12, 2012 12:48 PM
205	No.	Sep 12, 2012 11:07 AM
206	Both Skyview and SOHI are vital to the continued success of our community. Whatever decision is reached needs to consider the fact that Skyview needs to continue to be Skyview and SOHI needs to continue to be SOHI to give the opportunity for all of our students to be succesfull. 211	I think a career/technical highschool is a good option, but it would also be nice to have a magnet or charter school option in the Soldotna area that focused on the Arts and Sciences, or gave one other option for families. Presently I think we have too many students in the middle school and would be better served by two middle schools.	Sep 12, 2012 10:48 AM
212	I think that if Fine Arts, Athletics and PE, Technical classes and Elective courses are decreased that would increase the decline of enrollment. The more variety the School District can offer, the more students will be interested in attending public schools.	Sep 12, 2012 10:47 AM
213	I realize things need to be done, but I haven't lived here long enough to really see what is a viable option. I would like to say that I have taught in 3 different states and in numerous schools in these states and this school system seems to really have the best handle on providing a quality education.
