MEMORANDUM

TO: Board of Education

FROM: Doris Cannon, Director of Elementary Education

THROUGH: Dr. Steve Atwater, Assistant Superintendent of Instruction

DATE: December 1, 2008

RE: Professional Development Software (Avatar) Demonstration

As part of the Professional Development Plan that was developed last year, the purchase of the Professional Development software has been completed. There will be a brief demonstration of this software during a worksession by Jamie Meyers, Professional Development Coordinator. This software includes a course catalog, registration, pre/post assessments of training, and tracking components. District teachers have been trained to use the software by their Professional Development Site Liaison and they are currently using the software to register for training within the District.
