BACKGROUND INFORMATION

For the past four months the district has been working with M3 Planning to write a new strategic plan. What started with community and staff surveys in January is now in the final draft stage.

This worksession is time for you to offer comment on the plan. Note that the plan is on the agenda for approval at the meeting following this worksession. Schools attending the District's Leadership Academy (June 5-6) will use the goal statements of the proposed plan to drive site level improvement plans. These site improvement plans and district level action plans will be used to create the accountability portion of the strategic plan. This reporting component will be available in the late fall.

A copy of the proposed plan will be available at the June 4 meeting.
