SCHOOL BOARD COMMUNICATION

Title:	KPBSD Evaluation Systems update		
Date:	7/31/12	Item Number:	Worksession and 11a.(7)
Administrator:	Sean Dusek, Assistant Superintendent <i>Sean Dusek</i>		
Attachments:	Effective Instruction and Effective Leadership Evaluation Systems		

Action Needed For Discussion Information Other: _____

BACKGROUND INFORMATION

With the June work session on the evaluation systems postponed, Administration requested individual board member feedback at the July meeting to prepare for the August work session.

Both evaluation committees have recommended that no additional components or elements be added for 2012-13. The committees will work to refine full implementation of the systems and clarify how student achievement will be explicitly incorporated into the systems.

The Effective Instruction Committee has modified some of the forms to ensure each step in the process is clear and utilized for all staff. The Effective Leadership Committee has modified the overall process by recommending a formative feedback step earlier in the school year and conducting the summative step later in the school year. Finally, assistant principals will be evaluated using the effective leadership model during 2012-13.

ADMINISTRATIVE RECOMMENDATION

The administration recommends approval of the KPBSD evaluation systems as presented.

Goal of KPBSD Evaluation

The goal of the evaluation process is the promotion of self-reflection and continuous growth to ensure that every child in the Kenai Peninsula Borough School District receives a world-class, quality education at the hands of our skillful and dedicated professionals.

The new evaluation process is intended to promote self-reflection and continuous growth. This process is grounded in the belief that when given the opportunity, all teachers have the desire to continually improve in their abilities to meet the needs of every child with whom they work. The District's Effective Instruction model is grounded in solid research about teaching and learning and provides a durable framework upon which the changing needs of children in the Kenai Peninsula Borough School District can be met.

Step 1: Training

Purpose: Develop Common Understanding

The new process begins with effective training for both administrators and teachers about the evaluation process. This first step is necessary to ensure there is a common understanding about the criteria by which teaching will be assessed, and must include an introduction to the process, timelines, and paperwork, as well as an overview of the role the teacher and administrator each play in the process.

Step 2: Self-Reflection Conference

Purpose: Teachers Reflect on Practice

See document: Self-Reflection Rubric

The evaluation process centers on teachers reflecting for continuous growth. This second step begins the focused conversations about teaching practices and is the beginning calibration between the principal and teacher regarding what effective practices should be expected to be observed. Teachers should complete the Self-Reflection Rubric on their own. This step involves a meeting with both the teacher and administrator meeting to review the teacher's completed Self-Assessment Rubric and discuss the three primary guiding questions. The conference will include a discussion on evidence that could be collected throughout the year to demonstrate proficiency. No evidence needs to be presented at this time. The goal is to complete this conference by the end of September.

Guiding Questions:

1. What is it you want all students to learn?
2. How will you know when each student has learned?
3. How will you respond when some students experience difficulty in their learning?
4. How will you enrich and extend the learning for students who are proficient?

Step 3: Classroom Walk-Throughs

Purpose: Principal Classroom Awareness

One of the primary factors of school effectiveness is instructional leadership by the building administrator. The third step of the evaluation process involves principals engaging in classroom walk-throughs, which are an essential component of effective leadership and supervision. These walk-throughs provide the principal with multiple opportunities to observe what students and teachers do throughout the course of their time at school, while focusing on factors that support student achievement. Walk-throughs may be of any duration, but are typically 3 to 5 minutes in length, and feedback may or may not be provided, however, a critical component in maintaining a trusting and supportive relationship between teachers and their principals requires that any concerns identified during a walk-through must be shared with the teacher in a timely manner to promote conversation and resolution of the issue. Teachers who are on the Teacher Enrichment Pathway (TEP) should expect administrators to perform classroom walk-throughs throughout the year as well.

Step 4: Informal Observations

Purpose: Principal Classroom Awareness

The fourth step of the process is the completion of informal observations. At least two informal observations of at least ten minutes each help inform the principal's understanding of classroom dynamics and teacher practices, and position the principal to have informed conversations with teachers about their classroom practices. Informal observations provide an opportunity for principals to give teachers feedback about what they have observed, and this feedback is intended to promote reflection and the continuation of effective practices or changes to less effective practices, as may be needed. Evidenced based observations and feedback from informal observations must be given to teachers within five work days, and may occur in person, via email, or through a note. The dates of at least two of these observations are included at the top of the formal evaluation document as an indication that the evidence on which the evaluation is based was gathered on more than one occasion. Teachers who are on the Teacher Enrichment Pathway (TEP) should expect administrators to perform informal observations with a minimum of one (1) per semester.

Step 5: Pre-Observation Conference

Purpose: Focused Conversation about Instruction

See Document: Interview Protocol for a Pre-Observation Conference

The pre-observation conference composes the fifth step of the process. This step uses a more formal process to ensure a focused conversation about teaching practices to be observed in the upcoming formal observation. The pre-conference must be directed by guiding questions that are given to the teacher in advance. This personal conversation between the teacher and principal occurs in preparation for an upcoming formal observation, and can help lay the groundwork for a principal's understanding of what he or she can expect to see during the formal observation.

Step 6: Formal Observation

Purpose: Principal Classroom Awareness

Step 6, the formal observation, is scheduled in advance and lasts for at least 30 minutes. This step in the process must occur at least once prior to each evaluation summary to ensure that every teacher has the opportunity to receive feedback from their principal and incorporate that information into their practice.

Step 7: Post Observation Conference

Purpose: Provide Feedback to Teachers on Instruction

See Documents:

- *KPBSD Formal Observation Document*
- *Interview Protocol for a Post Observation Conference (optional)*

Step 7 is the post-conference. A post-observation conference will be scheduled and held within ten work days following the formal observation. The post-observation conference conversation should be guided by the pre-observation discussion, the observation itself and the Formal Observation Document. This meeting provides a focused opportunity for a shared discussion regarding the teacher's practice to determine proficiency levels and how it impacts students.

Step 8: Evaluation Summary Conference

Purpose: Conversation Reflecting on Instruction

See Document: KPBSD Standard Evaluation Summary

The evaluation summary conference is separate from the post-observation conference, and is the final step in the evaluation process. Prior to the evaluation conference, the principal will email a *draft* of the KPBSD Standard Evaluation Summary document to the teacher with evidence entered and boxes checked. The evaluation conference is a face-to-face meeting between a teacher and a principal during which they discuss where on the rubric the evidence gathered over time indicates the teacher is teaching. The discussion should extend beyond the evidence written on the form and that from the formal observation to allow a reflection of the teacher's overall performance to be considered in the completion of the document. Teachers have the opportunity to bring additional evidence to the conference for consideration. Upon mutual agreement between the teacher, school administrator and HR, the deadline for completion of the Evaluation summary may be extended to April 15.

This step in the process may be separate from the post-conference to ensure both the teacher and the principal do not rely too heavily on a single formal observation as the only indicator of teaching performance. At the conclusion of the evaluation cycle, the teacher and principal will have engaged in multiple conversations aimed at supporting effective instructional practices.

201 File Documentation

At the end of the conference, the principal and teacher have completed the document from step 8, KPBSD Standard Evaluation Summary, and only a signed copy is sent to Human Resources for inclusion in the teacher's 201 file. No other documentation should be sent to Human Resources.

Appendix

AS 14.20.149 Employee Evaluation

- (a) A school board shall adopt by July 1, 1997, a certificated employee evaluation system for evaluation and improvement of the performance of the district's teachers and administrators. The evaluation system applies to all the district's certificated employees except the district's superintendent. A school board shall consider information from students, parents, community members, classroom teachers, affected collective bargaining units, and administrators in the design and periodic review of the district's certificated employee evaluation system. An evaluation of a certificated employee under this section must be based on observation of the employee in the employee's workplace.
- (b) The certificated employee evaluation system must
- (1) establish district performance standards for the district's teachers and administrators that are based on professional performance standards adopted by the department by regulation;
 - (2) require at least two observations for the evaluation of each nontenured teacher in the district each school year;
 - (3) require at least an annual evaluation of each tenured teacher in the district who met the district performance standards during the previous school year;
 - (4) permit the district to limit its evaluations of tenured teachers who have consistently exceeded the district performance standards to one evaluation every two school years;
 - (5) require the school district to perform an annual evaluation for each administrator;
 - (6) require the school district to prepare and implement a plan of improvement for a teacher or administrator whose performance did not meet the district performance standards, except if the teacher's or administrator's performance warrants immediate dismissal under AS [14.20.170\(a\)](#); and
 - (7) provide an opportunity for students, parents, community members, teachers, and administrators to provide information on the performance of the teacher or administrator who is the subject of the evaluation to the evaluating administrator.
- (c) A person may not conduct an evaluation under this section unless the person holds a type B certificate or is a site administrator under the supervision of a person with a type B certificate, is employed by the school district as an administrator, and has completed training in the use of the school district's teacher evaluation system.
- (d) Once each school year, a school district shall offer in-service training to the certificated employees who are subject to the evaluation system. The training must address the procedures of the evaluation system, the standards that the district uses in evaluating the performance of teachers and administrators, and other information that the district considers helpful.

- (e)** A school district shall provide a tenured teacher whose performance, after evaluation, did not meet the district performance standards with a plan of improvement. The evaluating administrator shall consult with the tenured teacher in setting clear, specific performance expectations to be included in the plan of improvement. The plan of improvement must address ways in which the tenured teacher's performance can be improved and shall last for not less than 90 workdays and not more than 180 workdays unless the minimum time is shortened by agreement between the evaluating administrator and the teacher. The plan of improvement shall be based on the professional performance standards outlined in the locally adopted school district evaluation procedure. The school district must observe the teacher at least twice during the course of the plan. If, at the conclusion of the plan of improvement, the tenured teacher's performance again does not meet the district performance standards, the district may non-retain the teacher under AS [14.20.175](#) (b)(1).
- (f)** A school district may place an administrator who has previously acquired tenure, whose performance, including performance as an evaluator under the district's certificated employee evaluation system, does not meet the district performance standards on a plan of improvement. The plan must address ways in which the administrator's performance can be improved and shall last for not less than 90 workdays and not more than 210 workdays unless the minimum time is shortened by agreement between the evaluating administrator and the administrator being evaluated. The school district must observe the administrator being evaluated at least twice during the course of the plan. If, at the conclusion of the plan of improvement, the administrator's performance again does not meet the district performance standards, the district may terminate its employment contract with the administrator. This subsection does not restrict the right of a school district to reassign an administrator to a teaching position consistent with the terms of an applicable collective bargaining agreement.
- (g)** The department may request copies of each school district's certificated employee evaluation system and changes the district makes to the systems.
- (h)** Information provided to a school district under the school district's certificated employee evaluation system concerning the performance of an individual being evaluated under the system is not a public record and is not subject to disclosure under AS [40.25](#). However, the individual who is the subject of the evaluation is entitled to a copy of the information and may waive the confidentiality provisions of this subsection concerning the information.
