

# KPBSD POSITION WORKSHEET AASB CORE RESOLUTIONS 2012

## GOVERNANCE

AASB Resolution	District Position (comment only appears for those resolutions that the administration does not support)
1.1 Pledge of Allegiance	
1.2 Opposing mandated school consolidation	<b>RECOMMENDATION-DELETE:</b> As the state's finances are stretched, it is not inappropriate for the state to review efficiencies and economies of scale. A single school district with less than 50 students is probably not the most efficient way to spend state money, nor may it be in the students' best interest to maintain the small district when a larger district is close by.
1.3 Opposition to mandated borough formation	<b>RECOMMENDATION-DELETE:</b> The administration recognizes that the tax payers of our borough contribute a significant amount of their taxes to the KPBSD. It is appropriate to expect those who live in an area that has a reasonable tax base (to support organization), to do so.

## PERSONNEL

AASB Resolution	District Position
4.1	Support for staff development
4.2	National certification of teachers
4.3	Tiered licensure <b>Position ?:</b> This is a reach, not a hindrance. Our evaluation system provides a filter.
4.4	The Alaska statewide mentor project
4.5	Special education and related services training
4.6	Addressing the teacher, specialist, and administrator shortage (10 strategies suggested)
4.7	Repeal the social security government pension offset and windfall elimination provision
4.8	Relating to defined benefit retirement <b>RECOMMENDATION-DELETE:</b> The administration does not support a return to a defined benefit because it would cause a drastic decrease in staffing for KPBSD. Currently, KPBSD pays 12.5 % of salary to TRS for each certified employee. A return to a defined contribution would likely cause this amount to increase to a much higher rate- perhaps 40%. Without a drastic increase to the BSA, this change would leave the district with no choice but to reduce staffing. The intent of this resolution is good- we all want teachers to have a defined benefit. Unfortunately, the reality of making such a change is not financially doable. Recommendation that Board suggest an amendment to include language that would hold the district contribution at 12.5%.
4.9	Relating to health care costs and medical insurance
4.10	Supporting use of licensed professionals to facilitate services by electronic means
4.11	Identify and evaluate school performance incentive programs that promote student achievement in a fair and productive manner
