

**Soldotna High School
PTSA Executive Board
Golden Apple Award Recipient**

Quality volunteers could be compared to the "icing on the cake" in a school setting. Due to the outstanding volunteer leadership and service of the Soldotna High School PTSA executive board, Soldotna High School is a beautifully decorated cake.

Principal Sylvia Reynolds comments that the executive board members are not your ordinary garden variety type of volunteers, seen only once a month at a designated meeting time. This board is constantly visible in the school and around the community as they work toward completing tasks allowing them to meet their targeted goals for the school.

The PTSA set two goals for the school year 1) teacher and staff appreciation and 2) educating the public concerning school finance and funding. To show appreciation and gratitude for staff members, the board coordinated monthly staff luncheons and showered the staff with gifts and food during their proclaimed "Staff Appreciation Week." In response to their second goal, the executive board hosted central office staff and Juneau legislators to a question and answer forum regarding public education funding.

It is actions such as these that lead to tonight's special recognition. Please join us, the KPBSD board of education, as we proudly recognize the Soldotna High School PTSA executive board for its outstanding service to education.
