

Kenai Peninsula Borough School District COVID19 Confirmed Case in School Response Matrix

Positive COVID19 Case Scenario	Evaluate Probability of Transmission In a School	Reasoning for Response	Response
One positive case	Little or no risk	Confirmed case had little to no contact time in school	<ul style="list-style-type: none"> No building closure Communication to parents, students, and staff about a positive case, indicate there is no risk
One positive case	Possible or suspected	Confirmed case had some contact time in school while infected	<ul style="list-style-type: none"> No closure, or possible 24 hour building closure Possible increase building sanitization beyond enhanced protocols already in place *Notify class cohort; bus transportation; classroom; parents, staff, dependent on investigation or confirmed case Communication to parents, students, and staff about a positive case, indicate action implemented and risk
>1 positive case in a school in a 1-3 day time frame	Possible or suspected	Increased possibility that transmission occurred within a school building	<ul style="list-style-type: none"> Possible 24-72 hour building closure for investigation, cleaning, contact tracing If exposure is to a significant number of staff and students, school may be closed to students and shifted to 100% Remote Learning Scale of positive cases may trigger an immediate response to high risk status *Notify class cohort, bus transportation, classroom, parents, staff, building wing, or entire school dependent on investigation or confirmed case General communication to parents, students, and staff about a positive case, indicate action implemented and risk
>1 positive case in multiple schools in a 1-3 day time frame	Low or no risk	No specific region or discernable pattern to link confirmed cases	Address each case separately as defined in the One Positive Case scenario above
>1 positive case in multiple schools in a 1-3 day time frame	Possible or suspected	<ul style="list-style-type: none"> Cases occur within a geographic region, and a cluster or common origination is known Scale of positive cases may trigger an immediate response to high risk 	<ul style="list-style-type: none"> 24-96 hour closure of school or schools in region, with possible extension for investigation, sanitization, contact tracing Potential to raise district level risk to high, and trigger 100% Remote Learning Direct notification and-or general communication to parents, staff, public Notify KPB OEM office, partner agencies, KPBSD Medical Advisory Team

*All COVID19 confirmed positive cases with a KPBSD staff member or student will result in contact tracing and an investigation of exposure. All close contacts will be notified.

In communities with a population of <1,000, certain situations may be modified based on contact tracing and determination of public risk. Version: 8-21-20
