PEAK Testing

PEAK testing will be held the week of April 5-9.

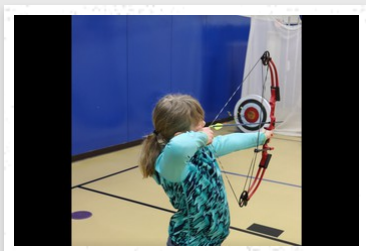

The Performance Evaluation for Alaska's Schools (PEAKS) are content area summative assessments designed to measure a student's understanding of the skills and concepts outlined in the [Alaska English Language Arts \(ELA\) and Mathematics Standards](#) and the [K-12 Science Standards for Alaska](#). Alaska's standards are specific rigorous expectations for growth in students' skills across grades.

The ELA and mathematics assessments are administered to students in grades 3-9. The science assessment is administered to students in grades 5, 8, and 10.

Please be sure your child is prepared by getting a good night's sleep and eating a healthy breakfast.

National Archery in the Schools Program

NASP is an in-school program aimed at improving educational performance among students in grades 4-12. And through it, students are learning focus, self-control, discipline, patience, and life lessons required to be successful in the classroom and in life.
