Dear Parents/Guardians,

The System for School Success is Alaska's accountability system designed to celebrate success in our schools and identify areas we can focus on to help provide additional support. This accountability system fulfills the requirements under the Every Student Succeeds Act (ESSA) to regularly evaluate school efficacy and close gaps in student achievement.

Accountability systems are not meant to be punitive. State standards and assessments are set as expectations for what students should know and be able to do. Accountability systems help to set the expectations for school performance and effectiveness and are one of the ways we can identify what is working well and what we need to improve. A brief overview of Alaska's accountability system can be found at:

education.alaska.gov/akaccountability/schoolsuccess/accountabilitysystems.pdf.

Alaska's accountability system allows us to:

- Articulate goals for student achievement, growth, and success
- Collect, analyze, and report on school performance
- Recognize high-performing schools and provide additional support to schools when needed

School report cards can be found on the [Alaska Department of Education and Early Development's website](https://education.alaska.gov/akaccountability/schoolsuccess/) under System for School Success.

- **Universal Support for families:**

Mountain View Elementary received a school designation of Universal Support. This means that the index value is higher than schools identified as the lowest 5% of Title I schools, the graduation rate is higher than 66.67% for schools with grade 12, and the index values for each subgroup in their school is higher than schools identified as the lowest 5% of Title I schools.
