MIGRANT ED UPDATE

Q'S? CALL KYLE @ 235-4640

1.

MIGRANT DOCUMENTS

When you receive your CoE, sign both copies and return them ASAP!

Still need to talk to a recruiter?
Call: 235-4640

2.

ADD KYLE ON WHATSAPP

Want updates on WhatsApp?
Add Kyle to your phone
and send a message w/
your name: 303-681-7347

3.

SCIENCE KITS!

Give me a call if you
would like a science
activity kit sent to you!

4.

SCHOOL SUPPLIES AND BOOKS

Need anything for Q2? Reach
out for supplies or just a
good book!

5.

**COLDWATER SAFETY
HAS BEEN POSTPONED
DUE TO COVID
BUT STAY TUNED
AND IN TOUCH!**

6.

SUPPORT

Need some extra
help with school?
We have some ways
to support you!

Mrs. Robinson's K/1 Classroom News

October 2020

Dear Parents,

We are having a beautiful fall in the K/1 classroom. It's all about Amazing Animals as we have focused on reading about animals lately. We have a touch table with animal covering (such as fur, feathers and scales) and animal homes like a birds nest and paper wasp's nest (minus the wasps of course). When we read, we are practicing asking questions about what we read. In the next few weeks we will be learning to identify fiction and non-fiction texts. In math, first graders have started subtraction and kinders are working on identifying and comparing numbers from 0-10.

~Annie Robinson

2/3 Grade News!

10-15-20 Mrs. Duncan's Class

Math

2nd: we reviewed doubles to 20, near doubles, fact families. We are heading toward addition.

3rd: we learned about place value, we rounded up to the nearest 10, nearest 100, we estimated prices, and sums. We are starting a chapter on addition with 3 digits.

Reading

$\frac{2}{3}$: we are alternating reading comprehension, writing, and word work over the days of the week. We are learning about the genre of the stories, the author's purpose, the characters, and the meaning of the story.

Homework

I want to thank all the families for making some time every day for homework. The kids are so proud to bring their packet back! They have a small incentive if they do. I accept any late homework and reward the children the same way.

Science

After picking up plants around the school, we let them dry and learned their names in English and Russian. We put together a plant book with pictures, our drawings, and colorings. It is coming home soon! All of the students were very proud of their work.

We also learned about the cow's digestive system as well as the human digestive system. We will learn about healthy foods for a healthy body.

Ms. Cori's 4th & 5th Class News

October 2020

Reading & Writing:

Students are working on leveled reading in small groups and reading chapter books independently. We have read 36 chapter books as a class so far! We are busy improving writing skills through weekly paragraphs.

Raz-Kids

This is a fun online reading program elementary students can do from any device at home.

- 1) Download the app or go to www.raz-kids.com
- 2) Teacher name: razdolnakids
- 3) Click student's name
- 4) Password: read

Dear Parents,
Happy Fall! Our first quarter has gone well. Students are making great gains in all areas of learning. Thank you for those that are making time at home for your child to do their "at home work". Please encourage your child to read daily at home.

Contact Information:
Whatsapp: 907-299-5009
Email: cori.szynskie@g.kpbsd.org

Social Studies/Science:

We are working on map elements, landforms, and locations. Students have also enjoyed some occasional STEAM lessons with Mr. Etzweiler.

Math:

4th Graders have mastered subtraction with larger numbers along with rounding and estimating.

5th Graders are excited to be completing multiplication problems with larger numbers.

Middle and High School Math

The students have been adjusting well to their online textbooks and really excelling in math!

All students have also had the opportunity to complete a project on Tessellations for the end of the quarter.

Math and Science with Ms. Bremner

October, 2020
Thank you for helping your students finish strong this last quarter! As we begin the new quarter students have an opportunity to hit the reset button and continue to produce amazing work!

Google Classroom

We will be utilizing Google Classroom for all of my classes this year. Students who miss school have the opportunity to access their assignments on Google Classroom via computer or the phone app.

Middle School Science

Students recently completed their first unit over lab safety and the scientific method. They created their own experiment to test as well as took their first test of the year.

The class is now beginning to study the properties of matter.

High School Science

Students have begun to learn the skills necessary to answer the question "are Chevys or Fords the better truck?"

Students are just finishing learning about motion in 1 dimension and will begin learning about Newton's Laws in the next week or so.

High School Health

Students in Health class are finishing up a unit on Growth Mindset.

The class has been researching a topic of their choice related to Growth Mindset and will be completing a 3 page research paper.

DR. STURM'S HISTORY AND ENGLISH CLASS OCTOBER 2020 UPDATE

High School English class is finishing a unit on Beowulf, a classic hero tale of ancient England. Students are getting ready to write an essay on a prompt of their choice.

High School Social Studies is learning about the American political system with a focus on elections and how they work.

Middle School English Class is working on RACE strategy for incorporating citations into their writing.

Middle School Social Studies class is working through the 5 themes of geography and how they apply to our daily lives.

In **Basic Economics and Personal Finance** we are working on career planning, budgeting and avoiding debt.

Efimia Basargin's Russian Class

It is important for a child to read Russian as much as possible in order to become fluent reader. Encourage your youth to read Russian at home. Here is a website that provides Russian online books,

СкзкиВсем.Ру

Загадка

Жёлтой краской крашу я
Поле, лес, долины.
И люблю я шум дождя,
Назови-ка ты меня!

Ответ на загадку:
Осень

Октябрь (October), 2020

Russian Class: The students have been reading about animals, and discovering new vocabulary words. Most students are learning to type in Russian as they do some of their Russian work online.

When we have time, they have been working on their Russian grammar review.

I give students Russian work that they need to do on Friday at home or in school. If they can't do it at home, they need to be in school on Friday.

If your child will not be in school for Russian class, they need to ask me for Russian work they will miss.
