Mrs. Robinson's K/1 Classroom News

January 2021

Dear Parents,

We are halfway through the school year as we start the third quarter. As always, please contact me if you have ideas, questions or concerns. How is everyone doing? If you need help or just need to vent please call! I'm available.

In addition to our packets and videos, I've been spending time planning for students to return and dreaming about the sound of children's laughter and chatter in the classroom. For now, students should continue to work on packets and view the videos because I am teaching new things every week such as how to take apart and put together numbers for the kinders, how to count by tens and ones for first graders, and of course learning letter sounds, sight words and those foundational reading skills.

When we return, it will be important for students to attend each time they are able so we can continue to progress towards the next grade level, have fun and learn in school. Have an amazing day!

~Annie Robinson

2/3 Grade News!

January 2021- Mrs. Duncan's Class

Dear families,

I am looking forward to seeing your children in class as soon as possible.

In the meantime, if you need me to review reading or math with your child, we can set up a homevisit.

I'd be happy to help!

Reading

Please have your child read daily to practice their reading skills. They can help you read recipes, instructions, anything with print. Also, they can come to school to check out books from the library.

Help?

Do not hesitate to contact me if you need anything.
(907)355-0498

As for the second part of the school year, we still have lots of standards to cover in Reading and Math.
In the 2 folders available at school, the 2nd graders will work on 2, 3-digit addition, the 3rd graders on fractions. I will teach or reteach some standards (especially in Math) when we come back to school to make sure all children are proficient.

Ms. Cori's 4th & 5th Class News

January 2021

READ

It is very important for 4th & 5th graders to be reading often to develop their learning. Please encourage your child to read daily at home.

Learn at Home

Be creative in teaching from home. Have your child read and follow recipes, read a newspaper article, write a letter to a family member, help build or fix something, and more. The possibilities are endless.

Welcome to a new semester! Please reach out for support during this time of uncertainty. I am here for your children and willing to help them learn in whatever capacity I can.

Contact Information:
Whatsapp/text: 907-299-5009
Email: cori.szynskie@g.kpbsd.org

You Are AMAZING!!

Thank you to all parents who are creating a space at home for their children to learn.

Math:

Multiplication facts: memorizing and becoming proficient in these will greatly help with future math skills.

We will begin learning more with fractions and decimals. Find real-world examples from home where you use fractions and decimals.

Math and Science with Ms. Bremner

January, 2021

Thank you for all of your hard work supporting the success of your students at home!

New Semester

Please do not hesitate to have your student reach out for help! I can be reached on WhatsApp or Signal at the following number:

720-675-9618

Middle and High School Math

I have many hands on projects planned for each math class this semester and hope that we can get back into the swing of things quickly.

If students would like additional support, I am always happy to work through the assignments with them over the phone. Students can also find helpful videos on Google Classroom or on Khan Academy.

Middle School Science

The middle school science class is continuing to learn about "matter."

They are finishing their study of the states of matter with a project and will be focusing on the elements for our next unit.

High School Science

Students are beginning the study of Chemistry. We will be focusing on the structure of atoms for our first unit of the semester.

Other units this semester will include the periodic table, chemical reactions, and acids & bases.

High School Meat Science

I am incredibly excited to be teaching Meat Science to the high school students this semester.

We are starting off by learning some common industry terminology. Please make sure your student reviews the expectations for this class as grading will be a bit different this semester.

DR. STURM'S HISTORY AND ENGLISH CLASS JANUARY 2021 UPDATE

High School English class is working on writing skills in the area of informative and comparative essays. We will be sending home more reading quarter 3.
High School Social Studies is focusing on economics, we will talk about economic systems personal finance and taxes.

Middle School English Class is working on writing perfect paragraphs and sentences as well as improving our reading fluency and comprehension
Middle School Social Studies class will be shifting from Geography to units on Ancient Civilizations.
The middle school elective will be Physical Education for semester 2.

It is my sincere hope that we get back to school, If we have to do packets please get them in.
If you need help and school is closed, call me or schedule a time for a homevisit.

Efimia Basargin's Russian Class

It is important for a child to read Russian as much as possible in order to become fluent reader. Encourage your youth to read Russian at home. Here is a website that provides Russian online books, https://skazkiwsem.ru/

Click this book to read.

Russian Class:
This year we'll do Russian language worksheets, read and write.

Загадка

Распускает хвост павлином,
Ходит важным господином,
По земле ногами - стук,
Как зовут его?

Ответ на загадку:

жюрнп

Please have your children turn in their Russian Packets as soon as possible.
