

The SMCS Give and Take Food Table

Hello parents, a group of students are organizing a Give and Take food table at our school. The Give and Take Table is a place where students with uneaten food from lunch can share an item, and students who would like additional food can select an item from it. Your student can only participate in this student-led program with a signed permission slip, located in this Thursday folder.

Please Note: if your child has allergies make sure they know how to select food safely if you choose to have them participate in this project
