

Voznesenka School

Site Council Meeting Minutes
October 3, 2025

- ❖ **Community and Staff Present**
Mike Wojciak, Neonila Martushev, Zina Kalugin, Apolinarya Basargin, Irina Kalugin, Leedia Polushkin, Ksenia Kuzmin
- ❖ **Welcome- sign-in**
- ❖ **BOY Data:**
MAPS, mClass, iReady, and State Assessment data were all presented and discussed. As a school, in nationally normed assessments, we are overall slightly below national averages. The difference between criterion and norm referenced data was also discussed to get a better understanding of the data covered.
- ❖ **Path to the Park:**
The path to the park continues to be an interesting journey. The current path does not address the student safety issue of getting students to and from the park. It actually deters from it with students wanting to climb on the blocks. Concerns of snow removal have also been voiced, which will need to be addressed. There is continued discussion about using a culvert to make the original path usable again.
- ❖ **Health Curriculum:**
With a new health curriculum, Erin's Law, Bree's Law, and a new electronic opt out form there was plenty of concern regarding all the health initiatives, which were addressed. There was a lot of confusion over what box to check for indicating that parents didn't want their child exposed to any health lessons related to sexuality, at any level. Some parents inadvertently checked the box that takes their child out of all health lessons, which was not their intent. With the box checked, and the specific sexual language in parenthesis adjacent to the box, those students will only receive non-sexual related health lessons.
- ❖ **H.S. students leaving at lunch:**
There are getting to be more students leaving at lunch, which is especially prevalent with H.S. students. A form will be prepared for parents to give their children permission to leave at lunch, otherwise parents will need to contact the school for students to leave. Monitoring student movement is difficult with multiple buildings, teachers allowing students to stay in their rooms during lunch, and a lot of student drivers.
- ❖ **Lack of Subs:**
With a current lack of subs, and a plethora of days needing multiple subs that go unfilled, a plea was made to attendees to continue getting the word out that we are in desperate need of more subs. An additional concern is that November 14th is the last day for one of our Tutors. Currently, there hasn't been any confirmed interest with someone willing to fill this position. If we are unable to get this position filled, the elementary Russian program may need to be put on hold until we get another person hired.
- ❖ **Title 1:**
Title 1 Annual meeting information was shared. A welcome message was given along with a short description of the program. Parents' rights were also discussed. Attendees were told that our Title 1 program supports all students with our school-wide approach. Instructional programs used, which are aligned with State Standards, guide instruction and show how students are progressing. Attendees were also told how they can be involved.
