

Voznesenka School

Site Council Meeting Minutes

September 30, 2026

❖ **Community and Staff Present**

Mike Wojciak, Neonila Martushev, Zina Kalugin, Irina Kalugin, Leedia Polushkin, Valentina Basargin, Ksenia Kuzmin, Verinia Kuzmin, Fenya Reutov, Zena Reutov, Kira Kalugin, Tatiana Martushev, Akcinia Kulikov, Domnika Maritshev, Ekaterina Reutov, Evdokeya Reutov, Anastasia Reutov

❖ **Welcome- sign-in**

❖ **BOY Data:**

MAPS, mClass, and iReady data were all presented and discussed. In nationally normed assessments, our schools are on the low side of national averages with MAP assessments. iReady and mClass data varied widely between grade levels and schools. The difference between criterion and norm referenced data was also discussed to get a better understanding of the data covered.

❖ **ParentSquare:**

Attendees were introduced to ParentSquare, which is a new messaging program purchased by the district. At last month's board meeting a policy banning the use of social media platforms not approved by the district was passed. Currently, HOB schools are being asked to do a soft rollout, allowing the continued use of WhatsApp while also incorporating ParentSquare. Parents were told they could expect a message to select how they want messages delivered along with the option of downloading the app. The district shared that School Messenger will be sunsetting at the end of this school year. This makes the use of ParentSquare inevitable at some point this year.

❖ **Site Council Bylaws:**

Kachemak Selo/Voznesenka Site Council Bylaws were displayed with a brief description. Attendees unanimously approved the bylaws as shared with no changes. Bylaws are accessible for review at any time on both the Kachemak Selo and Voznesenka School websites.

❖ **Update on summer projects :**

Over the summer several projects were completed. The path from the school to the park is finally done. Instead of a bridge there is a large culvert with a gravel path and fencing along the sides. It was a drawn out process for sure, but the end result was favorable. Additionally, portable 2 was sided with new windows put into both portable 1 & 2. Portable 1 was supposed to get done over the summer, but with the subfloor being so uneven it was determined to be a bigger project than anticipated and is on the docket for next year. Inside the main building new ballasts and LED lights were put in all the fixtures, which greatly improved the lighting.

❖ **Lack of Subs:**

With a current lack of subs, and a plethora of days needing multiple subs that go unfilled, a plea was made to attendees to continue getting the word out that we are in desperate need of more subs. Both Voznesenka and Kachemak Selo continue to be in the hiring mode as well, with positions needing to be filled. This has been a yearly problem that increases the workload and anxiety for those on site.

❖ **Title 1:**

The Title 1 Annual meeting was incorporated into the Site Council meeting. Parents are encouraged to share ideas of what they would like to see from the Title program and to participate in family sponsored events. Parents can call the school, fill out the hard copy questionnaire, or message Title teachers directly to provide feedback.
