

Carol Morris
Golden Apple Award Recipient
November 17, 2003

Carol Morris has been a school district team member for twenty years; she joined the special services department in 1984 and transferred to the grants department in 1994 as an administrative secretary.

Carol's supervisors and co-workers admire her thoughtful, helpful, considerate and conscientious work ethic, but Carol's most noticeable trait is her humility. With each passing year Carol assumes new duties; she currently manages the Title I grant budgets for twenty-five schools, in addition to the other grant program budgets she maintains. Management of the grant budgets is a monumental task and Carol does this in addition to her other administrative duties.

In addition to the many central office administrators that Carol assists on a daily basis, her duties also put her in contact with several of the schools in the district. Her interactions with the schools often turn a frantic panic into a solution-oriented, positive resolution. Carol's kind reassurance and willingness to assist rarely fails to end the call on a positive note. She takes little credit for the many special things that she does to help others.

Carol Morris is a valued and outstanding employee who does countless tasks to make the school district a better place to work. Please join us, the Board of Education, in honoring Carol Morris for her outstanding service to the Kenai Peninsula Borough School District and the students that we serve.
