

Travis Moore
Golden Apple Award Recipient
January 15, 2007

Travis Moore is a valued partner in the Nikiski education community. Mr. Moore donates more than ten hours each week to volunteering at Nikiski North Star Elementary School. He is the father of three children, two of whom are students at Nikiski North Star.

Mr. Moore volunteers in his daughters' classrooms, but his greatest contributions come from his assisting in the every day activities within a busy elementary school. Sometimes his focus is on preparing for one of the school's fantastic activities provided by the PTA, other times it is to perform crosswalk duty, and yet other times it is to assist our head custodian in removing snow prior to the arrival of students and staff.

This fall, Mr. Moore was asked to assist in completing the painting of the World Map on the school playground for implementation of the Peaceful Playground. He not only helped with this project, he individually took on the responsibility of purchasing the necessary supplies and completed the project within one week. He has also assumed the leadership role in directing successful activities such as Young Shopper's Club and the Nikiski Community Fall Carnival.

We, the members of the Kenai Peninsula Borough School District Board of Education, recognize Travis Moore as an outstanding school volunteer.
