

Vicky Peters
Golden Apple Award Recipient
March 20, 2006

As a Title I tutor, Vicky Peters has dedicated more than 14 years assisting in the education of students at McNeil Canyon Elementary School.

Vicky works with Title I students in the classrooms, during lunch she supervises Study Table, and she successfully oversees the After School Learning Lab. As if her day is not busy enough, she also finds time to volunteer for extracurricular activities and serve on school committees.

Mrs. Peters is a valued member of the McNeil Canyon staff; she possesses an in-depth knowledge of student learning. Pete Swanson, school principal, states "that of the many support staff I have worked with, Vicky is incredible." McNeil Canyon's Title I students have performed as well or better than the general population on state assessments for the last five years. Vicky can be credited with contributing to the student's success.

This evening, we, the Board of Education, recognize Vicky Peters and invite you to join us in honoring her for outstanding service to the students of McNeil Canyon Elementary School and the Kenai Peninsula Borough School District.
