Organizational Section

Borough and School District Relationship

The Kenai Peninsula Borough School District is operated as a component unit of the Kenai Peninsula Borough and is governed by a nine-member school board with members elected by district and complemented by a non-voting student representative. Financial data for the school district is also reported in the Kenai Peninsula Borough Budget and Comprehensive Annual Financial Report.

The Kenai Peninsula Borough Board of Education is required by Alaska law to adopt and submit an annual budget to the Kenai Peninsula Borough Assembly by May 1 of each year for approval. Within 30 days after receipt of the School District budget, the Borough Assembly must determine the total amount of funds to be made available from local sources for school purposes and furnish the Board of Education with a statement of this amount. By May 31, the Assembly must appropriate the local share of funding. Any subsequent increases in the local share of the School District budget must be authorized by the Borough Assembly.

Mission Statement
Supporting students in life success.

The District encompasses the same geographic territory as the borough and is roughly 25,600 square miles in size. There are 43 schools; estimated enrollment for FY27 is 8,009 students, operated in 21 communities ranging in size from approximately 10 students to some with more than 500. The District is a microcosm representing the state of Alaska. Our communities are culturally diverse, including three Native communities, and four Russian-speaking communities. We have urban schools as well as remote, with some locations accessible only by air or boat. Schools on the peninsula can be found in almost any conceivable formation serving pre-kindergarten through 12th grades.

Major Goals and Objectives

The budget is a reflection of the Kenai Peninsula Borough School District Board of Education's beliefs, goals, and strategies. The mission of the Kenai Peninsula Borough School District, in partnership with its richly diverse communities, is to develop creative, productive learners who demonstrate skills, knowledge, and attitudes to meet life's challenges, by providing stimulating, integrated learning opportunities in a safe, supportive environment. The School Board annually defines goals.

Board of Education Goals

Board goals for FY26 were set at the August 4, 2025 board meeting. Board goals for FY26 are:

- 1) Advance the KPBSD strategic plan across all focus areas.
- 2) Develop a long-term fiscal plan and advocate for sustainable funding.
- 3) Strengthen community and staff engagement.

Budget Administration and Management

The District uses the *economic resources measurement focus* and the *accrual basis of accounting*. The agency fund accounts for assets and liabilities and, as such, cannot be said to have a measurement focus. Agency funds do however, use the accrual basis of accounting to recognize receivables and payables. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

All major revenue sources including revenues from the Kenai Peninsula Borough, the State of Alaska and the United States government are considered susceptible to accrual. Entitlements and shared revenues are considered to be susceptible to accrual and so are recognized as revenues of the current fiscal period. Revenue for expenditure-driven grants is recognized when the qualifying expenditures have been incurred and all other grant requirements have been met. All other revenue items are considered to be measurable and available only when cash is received by the School District.

When both restricted and unrestricted resources are available for use, it is the School District's policy to use restricted resources first, then unrestricted resources as they are needed.

The District's maximum fund balance policy is mandated by Alaska Statute AS 14.17.505. This established that a District may not accumulate in a fiscal year an unreserved portion (as defined by 4AAC 09.130) of its year-end fund balance in its school operating budget that is greater than 10 percent of its expenditure for that fiscal year. The District's Board Policy on minimum fund balance states that the District should maintain a minimum committed fund balance in its General Fund of 3 percent of the subsequent year's budget expenditures and out-going transfers.

Classification of Funds and Account Groups

The accounts of the School District are organized on the basis of funds. A fund is considered a separate set of self-balancing accounts comprised of assets, liabilities, fund balance, revenues and expenditures, for transactions related to certain district functions or activities. Undesignated fund balance represents the excess of assets over liabilities and reserved fund balance.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate fund types.

Governmental Funds Governmental fund operations are focused on the measurement of the sources and flow of current financial resources. This measurement is unique in that generally only current expendable financial resources are accounted for in this group. Governmental funds consist of the following fund types:

General Fund - The general School District activities are recorded in the General Fund. The revenues of the General Fund are derived primarily from the State of Alaska, the Kenai Peninsula Borough and the United States government. Primary expenditures in the general fund are made for student instruction, operation and maintenance of plant and administration.

The State Board of Education and Early Development adopted a revision to the Uniform Chart of Accounts and Account Code Descriptions for Public School Districts effective July 1, 2018.

Special Revenue Funds - These funds account for revenues from specific revenue sources including food sales, transportation, grants from the State of Alaska and United States government, and transfers from the General Fund designated to finance particular functions and activities. This includes the Student Activity fund, formally presented as a fiduciary fund.

Capital Projects Fund – This fund is used to account for the purchase of moveable equipment and furnishings for new and remodeled schools. All costs associated with construction, remodel work and renovation are accounted for by the Kenai Peninsula Borough. Capital spending and major projects are approved by the School Board and submitted to the Borough for consideration via yearly on-site inspections and the formation of a Capital Improvements/Major Maintenance six year plan list. Funding for the capital projects is appropriated and accounted for by the Borough.

Proprietary Funds Proprietary funds are focused on the measurement of the economic resources required for a particular purpose and limitations on the use of net assets rather than on the source of those assets.

Internal Service Fund – The employee compensated leave fund was established effective FY04 to account for the assets required to pay for sick, personal, and annual leave accrued by employees. The health care plan internal service fund was established in FY12 to account for the contributions and other income collected to pay health care plan expenditures for employee and dependent health services and administration.

Fiduciary Funds This fund category is used to account for those assets which the District holds on behalf of others as their agent. The District holds no Fiduciary funds.

Budget Supervision and Oversight

After the formal budget adoption, the Board of Education may, by motion, transfer appropriations between major budget classifications or departments. The Superintendent may transfer amounts between line items within a major budget classification. Appropriations on annual budgets lapse at year end.

The Director of Finance, with assistance from the Chief Accountant, is responsible for oversight and management of the District budgets as approved by the Board of Education. Site and department level administrators, who are responsible for their site and/or department budget management and review. These administrators are responsible for ensuring expenditures do not exceed authorized budgeted amounts. They also ensure the revenue is expended for authorized, proper, and legal purposes.

The District's software system maintains account balances; the system requires funds be budgeted in accounts before expenditures are approved. All budget transfers are reviewed for compliance with the State of Alaska Chart of Accounts and District requirements.

The School District financial system constrains expenditures to accounts controlled by each administrator. As purchases are made, funds are encumbered (obligated) to reduce the budget and to prevent inadvertent overspending. The system will not automatically allow purchase orders to be released if they exceed the available budgeted revenue for the account. Administrators are given

limited latitude to transfer funds between accounts in order to meet the changing needs of their particular program or facility. Any budget transfer of \$50,000 or more requires school board approval.

The budget is revised to reflect the most accurate revenue projections available after the yearly student enrollment counts and review of actual staffing for positions are completed. At this time, expenditure accounts are also refined and balanced to the revenue projection.

The Board is routinely apprised of the District's financial situation through monthly reports of the status of revenues and expenditures. Quarterly, the Board is presented with a report of all the budget transfers. Finally, the District prepares an Annual Comprehensive Financial Report to report the audited results of district operations for the fiscal year. For the past 30 years, the Kenai Peninsula Borough School District has been the recipient of the Association of School Business Officials International (ASBO) award for excellence in financial reporting.

Classification of Funds and Account Groups

The Kenai Peninsula Borough School District account components and structure meet the requirements as outlined by the *State of Alaska Department of Education Uniform Chart of Accounts for School Districts and Account Code Descriptions*.

Fund Accounting

The accounts are organized on the basis of funds and account groups. A fund is considered a separate set of self-balancing accounts comprised of assets, liabilities, fund balance, revenues and expenditures for transactions related to certain district functions or activities.

Funds are classified into two categories: governmental and fiduciary. Each category, in turn, is divided into separate fund types.

Governmental Funds - Governmental funds consist of the following fund types:

General Fund - The general School District activities are recorded in the General Fund. The revenues of the General Fund are derived primarily from the Kenai Peninsula Borough and allocations received from the State of Alaska and the United States government. Primary expenditures in the general fund are made for student instruction, administration and operation of plant.

Special Revenue Funds - These funds account for revenues from specific revenue sources including food sales, grants from the State of Alaska and United States government, and transfers from the General Fund which are designated to finance particular functions and activities.

Proprietary Funds – Proprietary funds are focused on the measurement of the economic resources required for a particular purpose and limitations on the use of net assets rather than on the source of those assets.

Internal Service Fund – These funds account for the assets needed to pay for accrued employee compensated leave and the self-funded health care plan.

Fiduciary Funds - This fund category is used to account for those assets which the School District holds on behalf of others as their agent.

Student Activity Fund - The Student Activity Fund accounts for each Kenai Peninsula Borough school's individual activity account that sponsors student activities within the school such as athletics and student clubs.

Connections is the KPBSD homeschool program. We believe this is a viable educational option for parents who are committed to being involved in the education of their children. Connections and KPBSD provide instructional resources, curriculum counseling, technology, access to local school academics and activities, and funding to support student individual learning plans. Students receive the use of a Dell computer and HP printer for the school year. All students may participate in the District sports programs, as well as take up to two academic classes, including art, music, dance, world languages and/or PE in the local schools. Currently there are over 900 students enrolled, with traditional school students also taking correspondence enrichment courses. Our mission is to provide a variety of educational options to best support the child's total educational plan.

Homer Flex Alternative High School was started in 1990 to serve the needs of young people in grades 9-12 outside the traditional high school setting. The mission of the Flex School is to prepare students for success in the post-secondary world - academically, socially/emotionally, and vocationally. Homer Flex has implemented a standards/performance-based model where students earn their high school diploma through a set of eight standards, where they show the skills and content needed for a successful high school education. Homer Flex respects the students' choice to live an adult life; therefore behavior and standards are based on what is required in that environment. Homer Flex also houses Flexwood, where students design and create rustic furniture from recycled local wood and market it at various craft fairs and galleries. Homer is located on the north shore of Kachemak Bay on the southwestern Kenai Peninsula, at the southern most point of the Sterling Highway.

Kachemak Selo School is a K-12 school, and is located 28 miles east of Homer in a remote village. Kachemak Selo is too small to have organized athletic programs by itself. However, we participate in the Homer co-op Hockey program, as well as participate with Razdolna and Vosnesenka in co-op football, wrestling and soccer programs. Our high school students participate each year in construction and welding academies. We have provided a sewing academy for our middle and high school students in the winter months. On even years we organize an Artist in the School residency; odd years our upper elementary school students overnight at the Kasitsna Bay research facility to study plankton and intertidal invertebrates.

KPBSD has made extensive use of the E-Rate funding from the very beginning of the program. It has always been the intent of the district administration to maximize the benefit we could receive from the E-Rate program. As of the end of FY11, the district has received over 6.5 million dollars in E-Rate subsidy. Although the main purpose given for the E-Rate program is to connect classrooms and libraries to the Internet, our buildings were some of the 14% of classrooms nationwide that were already wired at the beginning of the program. Our wiring head start was a real advantage. As other districts struggled with the time-intensive process of wiring schools in the early E-rate years, we were already moving on to other things, like fiber optic networks, and more significantly, an entire technology overhaul district-wide.

Nursing Services provides for on-site school nursing and program management for the entire Kenai Peninsula Borough School District's traditional schools, charter schools, and alternative schools. The amount of nurse time for each school is determined by a Board-generated formula with additional consideration of the individual building's specific medical needs. In order to provide the most comprehensive services, several nurses travel between multiple sites. This office maintains current nursing standing orders, a departmental procedure manual, conducts nursing inservices, provides continuing education and inservice hours, stocks a variety of supplies e.g. TB serum and those related to the Medic First Aid® training, and creates or maintains additional programmatic resources as required. In addition, Health Services is responsible for executing the role of Blood borne Pathogen (BBP) Exposure Control Officer and implementing the BBP Exposure Control Plan. This OSHA mandated safety program incorporates all staff districtwide in accordance with OSHA regulations.

**2026-2027 Budget
Enrollment History and Projections**

Student enrollment projections are the key factor in budget development. These projections determine or influence many of the financial estimates that go into the budget. Staff allocations are based upon predicted Pupil Teacher Ratio (PTR) calculations. Instructional supply and material budgets are based upon predicted enrollment. Long term facility planning is also dependent upon these estimates.

The Kenai Peninsula Borough School District completes the enrollment projections annually in the central office. There are four separate inputs to the process: 1) building administrators prepare an initial projection; 2) a straight line projection is prepared to show the numbers of students moving forward by grade; 3) the cohort survival method forecasts future enrollment from historic trends; and 4) a subjective analysis is performed to account for any changes to the economic base, transition of private school children into high school, and other potential anomalies.

Modified Accrual Basis of Accounting	A basis of accounting in which revenues and other financial resources are recognized when they become susceptible to accrual, that is when they are both "measurable" and "available" to finance expenditures of the current period. "Available" means collectible in the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recognized when the fund liability is incurred except for (1) inventories of materials and supplies that may be considered expenditures either when purchased or when used, and (2) prepaid insurance and similar items that may be considered expenditures either when paid for or when consumed. All governmental funds, expendable trust funds and agency funds are accounted for using the modified accrual basis of accounting.
