DID 100-block	\$ 70.35
DID 10-block	\$ 11.73
Long distance, cost per minute	\$ 0.04

** SIP Trunk service response presented multiple bandwidth tiers allowing for varying levels of concurrent calls. KPBSD used 2M (20 concurrent) tier for purposes of RFP comparison and Re-cap. This tier is most comparable to the present 23-channel analog service SIP trunking is intended to replace.
