Protests based on any discrepancy, defect, ambiguity or other error in the solicitation will be disallowed if the fault has not been brought to the attention of the District, in writing, at least ten (10) days prior to the date set for submission of bids. conditions, and performance requirements of the ITB and any bid which contains information or material which cannot be verified or otherwise confirmed for purposes of determining responsiveness to the solicitation.

13. Bidders may not qualify a bid nor restrict the rights of the District. If a bidder does so, the District may determine the bid to be non-responsive and the bid may be rejected. If the District fails to identify or detect supplemental terms or conditions in a bid that conflict with those contained in this ITB or that diminish the District's rights under any award resulting from this ITB, the term(s) or condition(s) will be considered null and void.

14. The District shall have the authority to waive irregularities on any and all bids, except that timeliness and manual signature requirements shall not be waived, when deemed to be in the best interest of the District.

15. The District reserves the right to reject any or all bids, consider alternates and waive formalities in ITB procedures as is in the best interest of the Kenai Peninsula Borough School District.

16. The District reserves the right to select final quantities and product based on total cost and cost itemization.

17. The apparent low bidder(s) may be required, if deemed to be in the best interest of the District, to submit written verification of their ability to fill any order(s) subsequent to this ITB in accordance with the specifications and delivery time line established in this bid document, prior to final award.

18. Once the bid has been awarded and subsequent purchase orders have been issued, if the low bidder cannot fill the purchase orders in accordance with the specifications of the ITB, the District may vacate that award, cancel any affected purchase orders, and issue new purchase orders to the next lowest responsible bidder.

All the bids, together with copies of all documents pertaining to the award of this ITB, will be kept by the Purchasing Department and made a part of the record. Following award of the ITB, the bid record will then become public information.

## **N. LOCAL PREFERENCE CONDITIONS**

School Board Policy AR 3311 states:

*KPBSD intends to give preference to local residents, businesses, contractors, producers and dealers to the extent consistent with the law and best interest of the public.*

*The District purchasing office shall purchase from the lowest qualified, responsive, and responsible bidder or business. When bids or quotes are within 5% of being equal, preference may be given to local businesses who operate within the Kenai Peninsula Borough if it is determined by the Superintendent to be in the best interest of the District. For the purpose of this policy, a local business is defined as: any business or company having a physical presence in the Borough, registered in the Borough to collect sales tax, and locally provides the products and services sought. The 5% policy may be applied to all purchases up to \$25,000.00.*

*This policy will not apply where the provisions of an applicable statute, regulation, or grant prohibit local bidder preference.*

Failure to respond to three (3) proposals/bids may result in being removed from the District's bid list.

Q.        AWARD

This bid will be awarded Line by Line.

## **Classroom Display Technology Plan**

### *Project Scope and Summary*

The Kenai Peninsula Borough School District (KPBSD) maintains an aging fleet of approximately 425 existing classroom displays. In the first two years of this project, approximately 230 Promethean ActivPanel Premium 9 displays have been installed in support of this modernization effort. Over the next two years, KPBSD intends to continue this modernization by upgrading the remaining aged classroom display fleet.

Key areas of focus in selecting the classroom display technology requested include ease-of-use for interactive teacher-led or student-driven classroom activities, the ability to interface with web-based applications, and support for device mirroring regardless of physical location:

#### **Ease of Use**

Classroom displays should enhance and support multiple instructional strategies such as whole group instruction, teacher-led activities, and student-led interaction.

#### **Professional Development**

Platform consistency is important to planning and executing a sound professional development strategy. Ensuring the platform is functionally consistent across all classroom displays is expected to optimize teacher onboarding, enhance ongoing professional development opportunities related to classroom displays, and enable a consistent experience throughout a student's educational career.

#### **Web-based Integration**

In many cases, classroom displays will be connected to a computer (laptop, desktop, etc.) via traditional display technology (HDMI), however, the ability to interact with web-based resources without the need for a dedicated device is important to ensuring that classroom displays serve to enhance a vast array of instructional needs.

#### **Device Mirroring**

Through remote learning offerings, the boundary between physical and virtual classroom spaces becomes increasingly blurred. The ability for classroom displays to foster collaboration through simple, effective local or remote screen mirroring is increasingly important to meeting students where they are in their education journey.

KPBSD looks forward to a consistent display fleet across KPBSD schools and administrative facilities at the conclusion of this initial 4-year deployment, supporting ongoing and embedded professional development, as well as the implementation of a sustainable refresh plan for future device replacement cycles.
