

Q: What is the cost of Middle College?

A: There is no out of pocket cost for students in KPMC. KPC Tuition, books and fees for middle college students are paid by KPMC (KPBSD)

Q: Why attend a Middle College (instead of JumpStart or other programs)?

A: Students can participate in both programs. However, there are many benefits of Middle College:

Student Support

- Individual Mentoring
- KPC course recommendations specific to Middle College students
- Paid tuition through KPBSD
- Paid books and fees
- KPMC support and parent communication

Community

- KPMC Cohort model
- Part of a community of Middle College Students
- Continued participation in KPBSD athletics, electives, etc...
- Common classes with other KPMC students

CREDITS:

Middle College students can enroll in seven (7) credits their first semester and, if eligible, may be enrolled in up to 13 credits in subsequent semesters. Students may work toward both their graduation requirements and general requirements (GERs) for a certificate and degree program.

MENTORING:

Each student is assigned a KPBSD mentor, who will check in with the student throughout the semester. Mentors provide a point of contact and support system for students as they learn to navigate college coursework and campus life. Mentors help students make progress, set goals, and reflect on their process. Most importantly, mentors celebrate student success and provide individual support

OTHER SUPPORT:

Books, Materials and course fees are covered by the KPBSD Middle College program. We will assist students in ordering books for classes.

Transcripts from KPC are automatically sent to your affiliate HS! Students work with their local counselors to decide which credits to transfer.

About Us:

Middle College is a great choice for students who want to complete their high school diploma by taking classes at Kenai Peninsula College.

Through a partnership between Kenai Peninsula Borough School District (KPBSD) and Kenai Peninsula College (KPC), Middle College students earn both high school and college credits while benefiting from the support of a collaborative learning environment, a cohort of middle college peers, and a structured mentoring program.

KPMC
