Two Day Focus

- Goal for our two days is to get a head start on next year (develop your leadership team's capacity by raising your data and assessment literacy)- goals will have specific steps
- Identify where you want to focus- what is your school's greatest need?
- Take some time to analyze what is going on- ask some tough questions, be honest. Student learning is the bottom line-not the program, not your tradition, not your favorite practice
- For example high school reading- do we teach reading or just assign reading in high school?

KPBSD's Key Performance Indicators

New Assessment in Spring 2015

- AMP- Alaska Measures of Progress
- AAI-Achievement and Assessment Institute custom assessments to measure Alaska English Language Arts and Math Standards= higher expectations
- Expect percent of proficient students to decline

AMP, Online Testing

- Test window will be longer
- Two options
 - March 30-May 1
 - April 6-April 17
- Two content assessments (LA and math) for grades 3-10
- Science for grades 4,8,10 March 30-April 3

Alaska Standards-are they driving your
instruction in LA and math?

Are you comfortable with the Alaska Standards?

Need to when necessary innovate, the standards go deeper, analyze, synthesize and evaluate information-what is your school's culture? Are you taking risks? What are you stopping or dropping?

Communicate

Let your stakeholders know that the move to the new standards is a big one, and that you are collaborating to address the biggest challenges- it will take some time to get all in place

Standards count for you too

Bottom line is that you need to be teaching the Alaska Standards- this is what will be measured and what will affect your evaluation

Alaska State Standards

- They are the what you teach in language arts and math not the how.
- Are you adjusting the how to meet the learning needs of your students?

The How

- This is what today and tomorrow are all about.
- Time for you to think about your current practices, routines, rituals and decide what we can do to improve our students' learning
- Don't just add more stuff- you must let go of some of what you are doing before you can take on new strategies or actions

Thanks for your willingness to work a few extra days to help get ready for next year.
